NOTICE OF LEGAL STRIKE - CONSOLIDATED MURCHISON MINE

Shareholders and the public are advised that management and labour at Consolidated Murchison Mine in Limpopo Province have been negotiating wage increases over the past month.

Labour has demanded wage increases of between 30% and 50% and management has offered between 10% and 12%. Negotiations so far have not been successful in bridging the gap.

The discussions were referred to the CCMA which authorised a legal strike. Representatives of labour subsequently gave notice of strike action, having given 48 hours notice.

The labour force came out on strike on the evening of 20 August 2007. Management continues to negotiate a resolution to this situation as a matter of priority and is engaged in ongoing discussions with Union representatives.

Essential services have not been interrupted.

Johannesburg
22 August 2007.
